AMERADO CLOSES BIG ACREAGE DEAL

AKES 6,000-ACRE LEASE ON BRYSON RANCH

he Amerado Oil Company Tulsa Oklahoma last Satur- closed a deal for a 6000 oil lease on the J. H. Bry- Ranch paying cash for the e.

he acreage covers the west of the ranch crossing it n north to south and this itutes one of the biggest age deals made in the co- at least in recent times.

hile no statement would be e by the representatives of Company it is generally un- tood that they will drill on acreage and evidently they interested in Comanche Co- as an oil possibility as is enced by other acreage pur- es they have made.

TO DEEPEN BRYSON TEST

Work will be continued on the test well being drilled on the Bryson property according to the statement of Mr. Chapin who is drilling the well.

The work had been suspended pending his instructions while still in a gray lime which according to logs of other wells should continue some 200 feet.

According to geologists this lime should break and enter a black line out of which it would go into the Ellenburger lime and there is a chance for production within the top of the black lime and at the bottom where a sand is always encountered though not always Oil bearing.

Should Mr. Chapin fail to get production at either of these two opportunities it is his plan to shoot the well in the upper part of the gray lime where a gas showing was encountered and where oil men feel quite sure oil will be found in some quantity. Work was resumed on Monday last.

Thanksgiving

With loud hallelulahs and gladsome acclaim
We render Thee thanks and publish Thy fame,
Our Father and God, our Guardian and Friend,
Whose mercies fail not, Whose love knows no end.

Thy marvelous acts what tongue may rehearse,
Or tell all the treasures Thy hands disburse?
Thou givest the sunshine, sendest the rain,
With woods cloth'st the hill, the valley with grain.

Thou send'st forth Thy breath and life comes to birth,
And so thou renewest the face of the earth;
What wingeth the air, what roameth the land,
What cleaveth the wave, is fed by Thy hand.

And all things to us Thy bounty has given,
As lords of the earth and stewards of Heaven
To have to hold, to use and enjoy
For health and for wealth with reverent joy.

But more than all else, Thy goodness to prove,
Thou gavest to us the Son of thy love,
Thou sendest to us Thy Spirit of grace,
Thou liftest on us the light of Thy face.

Thy table Thou spreadest with heavenly food,
Thou crownest Thy chalice with life-giving blood—
For all faithful souls that banquet is rife
With fulness of love and fulness of life.

So gladly we come with song and acclaim
To render Thee thanks and publish Thy fame,
Our Father and God, our Guardian and Friend,
Whose mercy fails not, Whose love knows no end.

Both of the ministers from Comanche were reassigned to their charges. Rev. J. M. Wynne, who has been in charge of the Comanche station for the past year, was returned to this work much to the satisfaction of his people. Rev. J. L. Ray who has been on the Comanche Circuit for the past two years was returned to this work. Rev. Ray is popular with his parishoners, who petitioned the Conference for his return.

Rev. Harry B. Thompson, who was the predecessor of Rev. Wynne and who was assigned to the College Station was returned to that field.

Send Fruit to Orphans

The women of the Christian church met at the church Monday afternoon to bring their gifts of canned fruits that were to be sent to the Juliette Fowler Homes For Orphans and the Aged at Dallas. They expected to send a fair sized box full of these gifts but when all were assembled it was found to be enough to fill a large barel, which was packed and sent by express.

This Thanksgiving gift is in addition to the large box that is sent just before Christmas each year and which contains gifts of fruit clothing, toys and such other things as the membership might wish to send.

LIONS MAKE EFFORT TO SECURE SERVICE OF POULTRY EXPERT

The Comanche Lions Club is launching a campaign to secure not less than twelve Poultry clubs of ten or fifteen people each to raise Poultry under the supervision of Mrs. Elizabeth Temple of Missouri, Poultry Expert.

Mrs. Temple is employed by the Frisco Railroad and devotes her entire time to the development of the Poultry Industry in the territory served by the Frisco Lines.

Her work in Arkansas, Missouri, and Mississippi has attacted national attention and those who have followed her advise have the record of making more money per hen out of their eggs than anywhere in America.

One club boy under Mrs. Temple's directions owns the hen that holds the American record for egg production aside from one owned by A. & M. College of Texas.

It is the desire of the management of the Frisco Lines to develop the Poultry industry in this portion of their territory and they are willing to furnish the services of Mrs.. Temple toward that end. They are especially anxious to use Mrs. Temple in Brown and Comanche counties and if they can secure sufficient clubs they will heave her spend one week of each month in these two counties.

In order to secure her services some ten or twelve clubs must be organized to work under the asupervision the only requirement being that a record is kept of the feed and sales for without this the real result of the efforts of the poultry raisers can not be shown.

Mrs. Temple's methods are rather simple the chief thing necessary being a satisfactory Poultry house which can nearly always be made out of some building already on the premises of the average farm.

Mrs. Temple unlike most Poultry experts is not making an effort to build any paticular breed but is anxious to assist poultry raisers in getting the utmost production from whatsoever breed they prefer so it is not necessary to have any paticular breed of chickens or system of handling in order to become a member but simply a willingness to keep a record of the results obtained. Men, women, boys and girls are eligible.

An intensive diversification program is going to be engaged in during the coming year because of necessity and no program will bring greater returns on the investment than chickens intelligently handled as a money making side line. If the citizenship is to engage upon such a program the members of the Lions Club feel that any intelligent advice that can be given without cost will be a worthy undertaking on their part.

Elsewhere in the paper is an article and a coupon run by the Lions Club in an effort to secure clubs members.

GRAND JURY MAKES REPORT

Comanche, Texas
Nov. 22, 1926.

Hon. J. H. Eidson,
Judge 52nd Judicial District.

We your Grand Jury beg to submit the following report:

We have been in session 17 days. Have examined 209 witnesses and have returned into your Court forty four (44) bills of Indictments, 29 Felonies, and 15 misdemeanors.

We have had the full co-operation of the Court and all the officials thereof together with door and riding bailifs.

We have examined the Court House and Jail. We find the Jail well kept and the prisoners well treated and cared for. We find the Court House and yards to be in good condition and seemingly well cared for.

The officers of the Court House should have the full co-operation of the citizenship of this county in their effort to keep down crime and violation of the Law, as we find they are all doing their best to see that the law is obeyed.

We find the greater per cent of witnesses examined willing to talk and tell the truth, with but few exceptions it seemed who did'nt regard the sancitity of the Oath administered to them, and we would urge parents and teachers to impress on thier children the importance of telling the truth under all circumstances.

We find the making and selling of choc Beer and other intoxicating drinks is not only a violation of the law but that it spreads abroad in our County a very bad influence before our young people, and we urge every citizen to co-operate with our officers and reduce this violation which is now steadily on the increase.

Violation of the Sunday law has been called to the attention of this Grand Jury and we would sugest that parties who are operating their places of business on Sunday should respect this law. We also find some disatisfaction as to the manner in which our recent Elections Grand Jury and we would suggest that Election Judges and Officers be more careful in holding elections in the future.

A. W. PALMER, Foreman.

Visits Rio Grande Valley

C. J. Bartley who specializes in buying and re-seling fruits and vegetables in this section came in Tuesday from the Rio Grande Valley bringing with him a truck load of oranges, grape fruit, lemons, and tangerines.

This fruit brought direct from orchards proved quite interesting to the spectators who inspected his shipment on the streets.

Among the interesting things he had to show was the large lemons that the people in that section enjoy as compared to the kind that are sold to us as well as the kind of oranges they keep and the kind they sell.

Should it prove profitable Charlie plans to make other trips selling our products as he goes down and bringing back their products to us.

Charley of course "divided" with the Chief and gave us some of the finest grapefruit it has ever been our pleasure to enjoy.

Rising Star To Hold Poultry Show

Rising Star's seventh Annual Pig and Poultry Show will be held in the Custer Building on December 3rd and 4th. Rising Star has maintained a reputation of having one of the best Poultry Shows in this section of the State and all indications are that the exhibit this year will be bigger and better than before.

Possum Juries Instead Of Jury Possuming

When Judge Eidson opened court on Tuesday morning and glanced toward the jury box where he expected no jury he discovered that one chair was occupied by a large Possum very thoroughly "sulled".

At first he thought it was a witness that had "sulled" and then decided that it was a jury possuming but finally he decided that it was just a Possum jurying.

Just how he came into the jury box is not known but the supposition is that he had some character of case to plead and being just a possum thought that the Court House was the place to obtain justice.

Nervous
hot flashes

"SOME time ago when in a very nervous, run-down condition," says Mrs. Martha F. Marlow, of Broken Bow, Okla., "I tried numerous remedies to try at least to keep going, but I could not. I was weak and tired—just no good at all. My back ached and I had hot flashes until I was so very nervous I smothered.

"I couldn't sleep and I was never hungry, and I kept getting weaker. I couldn't stand on my feet. This was an unusual condition for me as I had been pretty strong all along. I knew that I would have to do something, and that pretty soon.

"Some friend suggested that I take Cardui, and it certainly was a good suggestion, for after taking one bottle I could tell I was stronger and better. I didn't quit. I kept it up and did fine. I felt like a different person after I began taking Cardui."

Cardui has helped thousands of others, and should help you, too.

STILL running my wood saw. If you want wood sawed drop me a card as I have no phone. J. S. Raymond, Comanche, Texas. 1tpd

We certainly appreciate the nice offer The Backstrom and Jackson Studio is now making and especially the way they are making this offer. Heretofore only City folks have had the chance to take advantage of the perodical tickets that have been put out by agents and only those living close in ever saw the agent. This ticket published gives each and everyone an equal chance and at the same time does not bother any of us with the canvassing agent.

It will pay you to run in and see the beautiful work these boys are now making whether you are in the market for pictures or not. And as they are both old hands at the business and do all their work puts them in position to give you the best at a reasonable price. (Adv.)

SHOWS NEW STUNT IN RODEO

The automobile has invaded another realm of the horse, the dangerous game of "bulldogging" steers, which has been popular in the Lone Star State ever since the vast herds of cattle roamed its praries.

The stunt was successfully performed recently for the first time by a daring cowgirl at the rodeo held at Bandera, Texas.

Crouched on the running board of a Chevrolet touring car, she rode in pursuit of a wild Texas steer. A group of yelling cowboys mounted on horses joined in the chase. The driver of the Chevorlet adroitly avoided a frenzied charge when the steer suddenly stood his ground and attempted to gore his pursuers.

The car then whirled in a swift circle and ran alongside the galloping steer. The cowgirl then leaped from the running board to the animal's shoulders, locked one arm about his neck and threw him to the ground. She suffered no injury.

Veteran cowmen in Bandera County, the heart of the western ranch country, declare that "bulldogging" form a car appears to be safer than when the rider is mounted on a horse.

MUCH FUN IN 'HELP YOURSELF'

Mrs. Mollie Moore Godbold's newest play "Help Yourself" put on Tuesday evening at the High School auditorium by the Study Club proved full of fun as well as entertainment for the splendid crowd that was in attendance.

Aside from the screamingly funny situations and Choruses the musical numbers words and music of which were written by Mrs. Godbold and Piano arrangements by Mrs. Henry E. Moore added a touch to the musical that was very enjoyable.

Alimony Brown and Castoria Prunella Johnson colored beau and belle kept the audience convulsed with laughter the work of Messrs Lionel Slider and James W. Cochran.

This play by Mrs. Godbold ranks favorably among modern work of this kind over the nation and will likely be put on in every State in the Union during the next year.

The play was put on by the Study Club in an effort to raise funds to assist in paying for their lot.

Girls Clubs Prove Tomato Growers

The girls division of the Four Agricultural clubs have been consistently busy this year and have been doing splendid work. The Clubs meet about once each month, and are thoroughly organized having secretary, treasurer and yell leader. At the meetings of the clubs matters of interest to all are discussed, plans and methods of work suggested and reports of progress given.

The girls division this year has given its major attention to the raising of tomatoes which have yielded good crops, but which have not been as easy to sell as they should have been.

According to the reports that have been made to the County Agent to date Evelyn Drennan made the highest yield of all the contestants. She made 2716 pounds from one tenth of an acre the amount of ground used by all the contestants. After deducting the expenses of making the crop her clear profit was $27.80, which is a nice figure when it is remembered that at this rate one acre would have made $278 clear profit.

Maurine Stewart of the Bibb Club made 2425 pounds from her tenth acre which were ready for the early market and was sold to trucks which carried them into the oil fields. Her yield amounted to a figure just above $100. Her expenses were not deducted from this amount.

Lois Janes gathered 2221 pounds, sold $6.00 worth and canned the balance for home use.

Francis Sumner of Bibb 2250 from her one tenth acre plot which if they had been sold at the low price of two cents per pound would have yielded $50 or $500 per acre.

Lorene LaRoque of Stag Creek produced 960 pounds and Jewel Duke of Duster 780 pounds.

If the combined crops of these girls had been sold for the small amount of two cents per pound the combined crop of the six tenths acres would have brought 227.04 or $378.40 for an entire acre.

The most of the fertillizer used by these young people was barnyard fertillizer and shows that our land will produce a larger yield from tomatoes than from cotton and at much less expense and in far less time.

Keep in Trim!

Good Elimination Is Essential to Good Health.

THE kidneys are the blood filters. If they fail to function properly there is apt to be a retention of toxic poisons in the blood. A dull, languid feeling and, sometimes, toxic backaches, headaches, and dizziness are symptoms of this condition. Further evidence of improper kidney function is often found in burning or scanty passage of secretions. Each year more and more people are learning the value of *Doan's Pills*, a stimulant diuretic, in this condition. Scarcely a nook or hamlet anywhere but has many enthusiastic users. *Ask your neighbor!*

Fitch Takes The Sham Out of Shampoo

OH, BOY! There's a delightful, refreshing, cleansing kick in a FITCH SHAMPOO! The Fitch Shampoo dissolves and removes *from the very first application* every particle of dandruff and foreign matter, leaving the scalp clean and healthy and the hair soft and fluffy.

The tonic in the Fitch Shampoo actually penetrates into every hair follicle, thereby invigorating the growth of hair. The lather is then gradually created by the application of water and, when rubbed out and rinsed, the lather carries with it all dirt, dandruff and foreign matter, leaving every pore open and functioning as nature intended.

AFTER THE SHAMPOO,

there is a FITCH TONIC for every hair and scalp condition!

If the scalp has been sore and blotchy, use FITCH'S IDEAL. If your hair is inclined to be oily, use FITCH'S QUININE or FITCH'S TONIQUE SUPERBE. (Both are astringent and antiseptic.) If you want the hair to lie in place, use FITCH'S LA FOMA.

Write to the F. W. Fitch Co., Des Moines, Ia., for free trial bottle of any of these preparations.

Mrs. Reeves was a member of the Christian church and was known as a true Christian woman who took her church relationship seriously and hence lived a noble member of the church for nearly a third century.

The deceased is survived by ten children, and with the exception of one son all were present for her funeral. The children are: Mrs. Lyda Lee Pringle of Beattie; Mrs. Lavona Pitman, Beattie; Luther and Carroll Reeves, Beattie; J. T. and H. J. Jones, Stag Creek; Mrs. Lou Tyndall, De Leon; Streeter Reeves, Thalla, Texas; Mrs. Cleo Pringle and A. J. Reeves, of Abilene.

The funeral services were conducted at Stag Creek Monday afternoon at 3:30 by Ben F. Hearn, pastor of the Christian Church, Comanche. Burial was in the Stag Creek cemetery in the family burial plot.

The bereaved loved ones have the sincere sympathy of their many friends in this hour of sorrow.

Thought Three Little Children Needed A Mothers Care

"My stomach suffering was so severe that I could not have lasted much longer. I did not care so much for myself but did not want to leave my three little children who needed a monthr's love and care. A cousin in California wrote me about MYAR'S and I took a course of it. I have since been entirely well." It is a simple, harmless preparation that removes the catrrhal mucus from the intestinal tract and allays the inflamation which causese practically all stomach, liver and intestianl ailments, including appendicitis. One dose will convince or money refunded.

Bandera Girl Shows Promise as Sculptress

The San Antonio Light of November 18th carries the photograph of Miss Velma Stevens 18 year old Bandera girl whom critics say she has a right to lay claim to a future niche in the halls of fame as a sculptress.

He work is done in clay and her studies are modeled from life covering animals and people. Persons helping her say she must indeed be an artist and she has never had any training except that developed by her own practice and critics predict for her a career of national and international fame.

Miss Stevens is a sister of Miss Aleen Stevens formerly of Bandera and now a resident of Comanche.

George Husley, Junior, made the highest average in school during the first term, his average being 95 per cent. He is playing regularly at center on the football team.

Below are the averages made by the foot ball players during the first term:

George Hulsey, 95; Bertis Magness 90; Aubrey Magness, 84; Troy Lee Lewis, 84; Wendell Herring, 87; Grady Williams, 83; Tom Pulliam, 84; Jack Rape, 82; Othello Martin, 80; Eugene Dodson, 78; Roy Evans, 75; Jno. Allen Todd, 70; Weldon Preston, 77; Jno. Doyle Woodward 90.

Most of the players are doing work above the average. The average is usually considered 80 per cent.
